

Anti-skid Film

■ Overview

Raised glass beads covered with resin creates an anti-slip surface for preventing slipping and falling accidents.

■ Details

This Anti-skid Film is highly durable and weather resistant, and can be used both indoors and outdoors. In addition to the reassuring anti-slip surface, it is highly transparent and reduces ultraviolet light, making it great for covering floor advertisements and information of full-color printed media.

■ Application Billboards, signage

■ Product size 1240mm × 50m
